

**INFINITY INTERNATIONAL**  
EXPERIENCE THE ESSENCE OF QUALITY

**Leading Manufacturer & Supplier of  
All Type of Brass Precision Components**

## ABOUT US

**INFINITY INTERNATIONAL**  
EXPERIENCE THE ESSENCE OF QUALITY

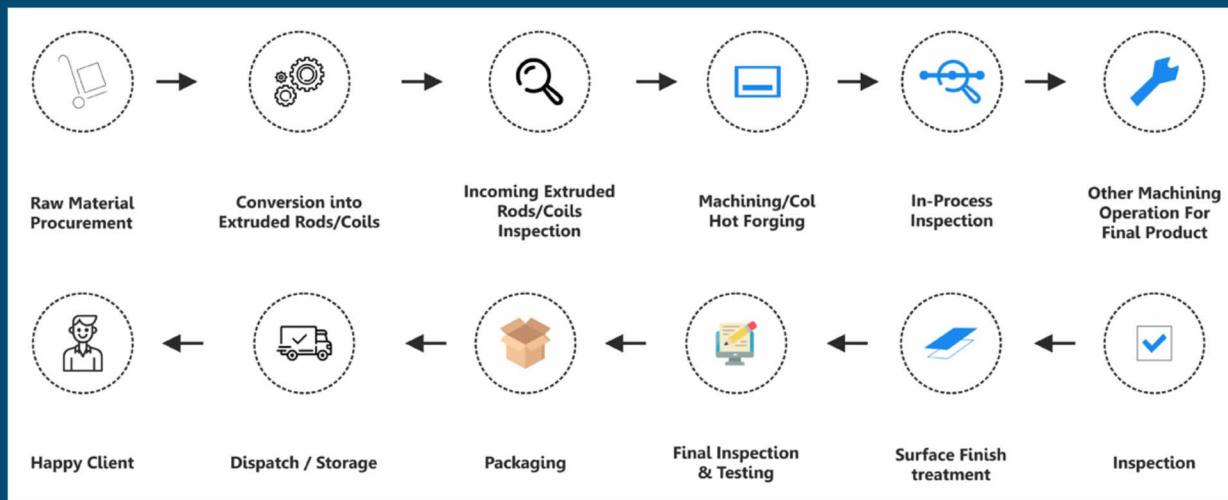

Infinity International, established with an aim of manufacturing best quality brass products. Since the inception, our focus is to work for continuous improvement through appropriate training to our loyal workforce and also investing into the latest technology CNC machinery in order to stay at the forefront for massive manufacturing.

Our company is a value driven organization based on the strong foundations of reliability, innovation and pioneering technology working towards the ultimate core focus of maximizing highly delighted customers worldwide. We believe in quality, honesty, transparency and are committed to produce high quality components as per client's Drawings, Samples or Standard reference.

Our wide range of offerings includes brass cnc turned components, brass auto parts, brass fitting parts, brass electrical components, brass moulding inserts, brass cable glands, aluminium components, stainless steel components, etc.

## Standard Manufacturing Process

## Our Mission

To continuously strengthen & upgrade our manufacturing processes, quality systems and people competencies by training, educating and providing a safe work place.

## Our Vision

To provide high-quality, value-added precision and fastening solutions and services, positioning our clients ahead of the competition and at the forefront of technology.

## Excellence

We strive for excellence in everything we do, delivering top-quality products and services, and continuously seeking ways to improve and innovate.

## Focus On Manufacturing Quality Metal Components

Superior quality is the primary concern at Infinity International. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

Our target is to provide zero defect products to our customer, which is remarkable and we firmly believe into it. Our plant is ISO 9001:2015 certified, a certification for quality management system which is being issued by the International Organization. To meet the global demand we take care at every stage right from raw material purchase to finished goods. We always starve to provide our customers with best quality products with zero compromise and 100% satisfaction.

## Quality Inspection Equipments

Instruments are heartbeats of industry. To assure good quality of products, quality instruments are required. Company has invested a good amount to have all type of measuring equipments including all instruments and gauges.

Profile Projector

Vernier / Caliper

Spectro Machine

Hardness Testing

Micro Meter

Gauges

## Quality Control

Our quality control department ensures that each product is manufactured with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control.

### Quality Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product.

### Packing & Dispatch

We understand that packaging is the most important aspect. After inspection, each order is directed to a particular packing location. The completeness of whole order can be checked here optionally. Than the packing list gets printed and the whole order is packed and dispatched.

## Brass CNC Turned Components

We are engaged in offering a wide range of Brass Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry. The range of Brass Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry.

## Brass Precision Components

We are leading manufacturer of Brass Precision Components providing customized products to achieve the desired specialization in the production of parts. These components are widely used in Engineering, Aerospace, Medical, Agricultural, and Machine Tool Industries.

## Brass Auto Parts

We are committed to manufacturing optimum quality and a wide range of Brass Automobile Components as per customer's specifications. Our brass auto parts are commonly used for different automobile and automotive applications. The range of Brass Auto Parts can also be used freely for different industrial application from automobiles to construction industries. Our experts make sure that our products suit perfectly to your complex project requirements.

## Brass Fitting Parts

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility.

## Brass Electrical Components

We are manufacturing all kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Socket Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

## Brass Gas Parts

We Manufacture and Exports Brass Gas Fitting Parts : Male - Female Elbow, Flare Female Elbow, Single Barb Elbow, Flare Male Elbow, Gas Fitting Connectors, Barb T - 3 way, Compressor Female Elbow, Compressor Male Brand - T, Flare Equal Elbow, Gas Fittings Plug, Compressor Male elbow, Equal T, Compressor Union T, Force Barb - T, Brass Canteen Burner Valves, Main Line Shut off Valves, Brass Needle Control Valves, Brass F Valves, Straight Nozzle Valve, Brass Non Return Valve, Brass Lpg Cylinder Valve Fittings, Brass Gas Valve, Brass LPG Equipments.

## Brass Connectors

We are one of the most renowned Brass Connector Manufacturers, Suppliers and Exporter. For manufacturing these brass connectors, we ensure that fine quality of brass metal is used. We have gained much prominence as a Brass Connector Manufacturer and Supplier. Our clients laud us for the quality of products and the promptness of our delivery services.

## Brass Moulding Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

## Brass Cable Glands

Cable Glands are the most reliable and durable components for securing and protecting the cables and required elements in hazardous or harsh environments. Cable Glands are made of various metals including Brass, Stainless Steel, Plastic, Aluminium, Nickel Plated Brass and more. The function of Cable Glands is to protect the Conductors and Cables from mechanical damage and protect assembly against ingress of dust and moisture. Depending on Cable Glands and their applications, the different types of Cable Glands Accessories including Earth Tag, Lock Nut, Reducer, Adapters, PVC Shrouds, Serreted Washers and more are manufactured according to International Standards.

## Brass Plug Pin & Socket

We are leading manufacture & exporter of supreme quality brass electrical plug pins and sockets. We produce a big variety of brass pins like Brass Socket Pins, Brass Plug Pins, Brass Charger Pins, Brass Auto Electrical Pins, Brass Contact Pins and Brass Neutral Switch pins which are made from copper zinc alloy as per customer requirements. These brass switch socket Pins are used in many industries like Automotive, Electrical & Electronics, Communication & Telecom, etc.

## Aluminium Components

Aluminium Components are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market. As all our products are developed using technologies best suited to the latest industrial applications and consumer demands, they are known for exhibiting rich attributes. Aluminium Components are known for Rugged Construction, Assuring Proper Fitting, Durability, Outstanding Performance and Low Maintenance.

## Brass Sanitary Parts

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Jointer.

## Precision is our craftsmanship. Elevating the standard of manufacturing

At Infinity International, we prioritize excellence through our state-of-the-art in-house manufacturing facility, equipped with cutting-edge machinery and operations leveraging innovative technologies. The industrial landscape boasts the latest and ultra-modern automatic equipments that defines the pinnacle of technological advancement, managed by a team of highly experienced and skilled staff dedicated to producing materials of controlled quality. This machinery is not only a testament to our dedication to staying at the forefront of industry standards but also a reflection of our commitment to quality.

We not only prioritize quality production but also contribute to a greener and more sustainable future. Our dedication to environmental stewardship reflects our holistic approach to responsible and forward-thinking manufacturing.
